GREASBY INFANT SCHOOL

HEALTH AND SAFETY AT WORK ETC ACT 1974

SCHOOLS' FRAMEWORK HEALTH AND SAFETY POLICY

1. INTRODUCTION

1.1. Health and Safety at Work etc Act 1974

This Act places a duty on all employers to safeguard so far as is reasonably practicable the health, safety and welfare of all their employees. In addition to this, duties extend to cover the health and safety of persons not employed but who may be affected by the work activities undertaken such as pupils, visitors, contractors, etc.

The Authority retains the above responsibilities under local management of schools as an employer in the same way the Governing Body of Academies, Aided and Trust schools but, it is important to realize that all employees have legal duties under the Health and Safety at Work Act, to co-operate with their employer so far as is reasonably practicable to ensure a safe and healthy place of work. This local Statement of Safety Policy is not intended to replace the Wirral Local Authority's Policy but to detail individual schools' Arrangements and Organisation for Health and Safety.

1.2. General Statement

The Governing Body of Greasby Infant School will strive to achieve the highest standards of health, safety and welfare consistent with their responsibilities under the Health and Safety at Work etc Act 1974 and other statutory and common law duties to provide a safe and healthy work place and working environment for all its employees, pupils, visitors and other persons who maybe affected by its activities.

The Head teacher and Governing Body will take all reasonable steps to ensure that the Authority's Safety Policy is implemented and, that Local Authority's Policy and Guidance Documents are followed and monitored throughout the school.

This policy will be brought to the attention of, and/or issued to all members of staff on induction and annual refresher at the start of each school year.

It is essential for the success of this Safety Policy that all employees recognise their responsibilities under Sections 7 and 8 of the Act in co-operating with management on health and safety issues and taking care of themselves and other persons whilst at work.

The Health and Safety Policy will be reviewed on an annual basis.

Signed: (Chair of Governors) Date: 21.9.23

Signed: (Head teacher) Date: 21.9.23

2. ORGANISATION

As the employer, the Local Authority has overall responsibility for health and safety in Community Schools, Community Special Schools, Voluntary Controlled Schools, Maintained Nursery Schools and Pupil Referral Units.

In Foundation/Trust Schools, Foundation/Trust Special Schools, Voluntary Aided Schools, Academies and Independent Schools, the responsibility for health and safety rests with their employer, The Governing Body.

To achieve successful implementation of the safety policy there should be clear lines of communication throughout the organisation.

Whilst the ultimate responsibility for health and safety remains with the employer a wide range of functions may successfully be delegated to the Head teacher, but the duty to comply with statutory requirements cannot be delegated away from the employer.

2.1. Responsibilities of the Governing Body

- a) Formulating a Health and Safety statement detailing the responsibilities for ensuring health and safety within the establishment;
- b) Reviewing the establishment's health and safety policy and performance annually;
- c) Regularly reviewing health and safety arrangements and implementing new arrangements where necessary;
- d) Providing appropriate resources within the establishment's budget for the implementation of the attached arrangements;
- e) Receiving from the Head Teacher or other nominated member of staff reports on health and safety matters and reporting to the Local Authority or other body as necessary.
- f) Promoting a positive health and safety culture and high standards of health and safety within the establishment.

2.2. Responsibilities of the Head Teacher

Overall responsibility for the day to day management of health and safety in the school rests with the Head Teacher.

As manager of the establishment and of all the activities carried on within it, the Head Teacher will advise Governors of the areas of health and safety concern which may need to be addressed by the allocation of appropriate resources, eg time, effort, finance.

The Head Teacher has responsibilities for:

- a) Communicating the policy to all relevant parties, including support, temporary and supply staff, contractors and third party users;
- b) Ensuring that the school has a defined system in place for undertaking suitable and sufficient risk assessments;

- c) The implementation and monitoring of the establishments health and safety arrangements which form part of this policy;
- d) Ensuring all staff are provided with suitable and sufficient information, instruction and training on health and safety issues;
- e) Ensuring that the establishment has emergency procedures in place and have a Business Continuity Plan for emergency and crisis situations. The school will schedule table top exercises to simulate emergency situations to assess the effectiveness of the emergency plan and amend as required.
- f) Reporting to the Local Authority (where they are the employer) any hazards which cannot be rectified within the establishment's budget;
- g) Ensuring that the premises, plant and equipment are maintained in a serviceable condition;
- h) The provision of appropriate health and safety information to Governors;
- i) Ensuring consultation arrangements are in place for staff and their trade unions/professional association representatives.

The Head teacher may choose to delegate certain tasks to other members of staff. It is clearly understood by everyone concerned that the delegation of certain duties will not relieve the Head teacher from the overall day to day responsibilities for health and safety within the establishment.

All staff are responsible for their own health and safety, but staff with leadership roles also take on specific health and safety responsibilities as outlined below.

Deputy Headteacher

- Assume the responsibilities of the Headteacher in her absence for the application of the health and safety procedures and arrangements across the school
- Ensure suitable and sufficient risk assessments are undertaken for the higher risk activities undertaken by staff and pupils for which they are responsible and that appropriate control measures are implemented;
- Ensure that appropriate safe working procedures are brought to the attention of all staff under their control;
- Carry out regular inspections of the outdoor areas area to ensure that equipment, furniture and activities are safe and record these inspections where required;
- Ensure that all accidents (including near misses) occurring within their department are promptly reported and investigated using the Local Authority's Incident Report Form (M13);

Key Stage 1 Leader

- Assume the responsibilities of the Deputy Headteacher in her absence for the application of the health and safety procedures and arrangements across the school
- Apply the school's health and safety policy to KS 1 department and be directly responsible to the head teacher for the application of the health and safety procedures and arrangements;

- Ensure suitable and sufficient risk assessments are undertaken for the higher risk activities undertaken by staff and pupils for which they are responsible and that appropriate control measures are implemented;
- Ensure that appropriate safe working procedures are brought to the attention of all staff under their control;
- Ensure that all accidents (including near misses) occurring within their department are promptly reported and investigated using the Local Authority's Incident Report Form (M13);

Foundation Stage Leader

- Apply the school's health and safety policy to Foundation Stage department and be directly responsible to the head teacher for the application of the health and safety procedures and arrangements;
- Ensure suitable and sufficient risk assessments are undertaken for the higher risk activities undertaken by staff and pupils for which they are responsible and that appropriate control measures are implemented;
- Ensure that appropriate safe working procedures are brought to the attention of all staff under their control;
- Ensure that all accidents (including near misses) occurring within their department are promptly reported and investigated using the Local Authority's Incident Report Form (M13);

Pre-School Curriculum Leader

- Apply the school's health and safety policy to the Pre-School department and be directly responsible to the Foundation Stage Leader for the application of the health and safety procedures and arrangements; Ensure suitable and sufficient risk assessments are undertaken for the higher risk activities undertaken by staff and pupils for which they are responsible and that appropriate control measures are implemented;
- Ensure that appropriate safe working procedures are brought to the attention of all staff under their control;
- Carry out regular inspections of the Pre-School areas to ensure that equipment, furniture and activities are safe and record these inspections where required;
- Ensure that all accidents (including near misses) occurring within their department are promptly reported and investigated using the Local Authority's Incident Report Form (M13);

PE Subject Leader

- Maintain or have access to an up-to-date library of relevant published health and safety guidance from sources including the Local Authority, DfE, Association for Physical Education, etc, and ensure that all members of the team are aware of and make use of such guidance;
- Ensure suitable and sufficient risk assessments are undertaken for the higher risk activities undertaken by staff and pupils for which they are responsible and that appropriate control measures are implemented; Carry out regular inspections of their areas of responsibility to ensure that equipment, furniture and activities are safe and record these inspections where required;

Business Manager

- Ensure that appropriate safe working procedures are brought to the attention of all staff under their control;
- Support the Headteacher with the implementation and monitoring of the establishments health and safety arrangements

Caretaker

- Maintain or have access to an up-to-date library of relevant published health and safety guidance from sources including the Local Authority, CLEAPSS, DfE, etc, and ensure that all members of the team are aware of and make use of such guidance;
- Ensure that appropriate safe working procedures are brought to the attention of all staff under their control;
- Carry out regular inspections of their areas of responsibility to ensure that equipment, furniture and activities are safe and record these inspections where required;
- Arrange for the repair, replacement or removal of any item of furniture or equipment which has been identified as unsafe.

Cook

- Maintain or have access to an up-to-date library of relevant published health and safety guidance from sources including the Local Authority, RPJ3, DfE, etc, and ensure that all members of the team are aware of and make use of such guidance;
- Ensure that appropriate safe working procedures are brought to the attention of all staff under their control;
- Carry out regular inspections of their areas of responsibility to ensure that equipment, furniture and activities are safe and record these inspections where required.

2.3. Responsibilities of Employees

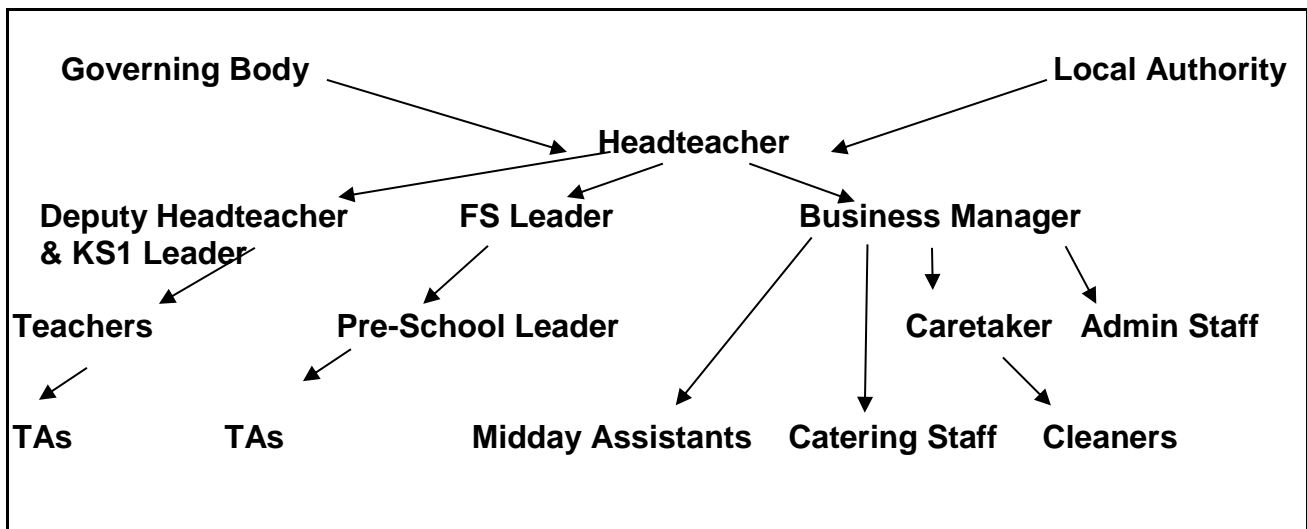

Under the Health & Safety at Work Etc Act 1974 all employees have general health and safety responsibilities. Staff must be aware that they are obliged to take care of their own health and safety whilst at work along with that of others who may be affected by their actions.

All employees of the establishment have the responsibility to:

- Take reasonable care for the health and safety of themselves and others in undertaking their work.
- Comply with the school's health and safety policy and procedures at all times
- Report all accidents and incidents in line with the Local Authority's reporting procedures;
- Cooperate with school management on all matters relating to health and safety;

- Not to intentionally interfere with or misuse any equipment or fittings provided in the interests of health, safety and welfare;
- Report all defects in the condition of premises or equipment and any health and safety concerns immediately to their Line Manager;
- Report immediately to their Line Manager any shortcomings in the arrangements for health and safety;
- Ensure that they only use equipment or machinery that they are trained, competent and authorised to use.
- Make use of all necessary control measures and personal protective equipment provided for safety or health reasons.

2.4. Management Chain

2.5. Consultation Procedures

SCHOOL

The following forums are in place at which Health and Safety issues can be raised by any employee associated with the school. Agenda items can be given to the Chair of the committee or Headteacher prior to the meeting.

- (i) Governors Safeguarding Committee (termly)
- (ii) Full Governors Meetings (termly)
- (iii) Staff meetings/Staff briefings (weekly)
- (iv) KS Meeting (half termly)
- (iii) Midday meetings (termly)
- (iv) F.O.G.I.S. (half termly)
- (v) Year Group meetings (weekly)

All Health and Safety Information, Policy and Guidance Documents and associated literature are kept in the school office, Headteacher's office or Staff Handbook in classrooms.

2.6. Responsible Persons

The following people have been identified to carry out a number of Health and Safety functions:

Health and Safety Function	Name/Position
1. Holding Health and Safety Documents, Authority's Guidance etc	Mrs J Tomkinsom, Headteacher
2. Accident Reporting, Incident Reporting	Mrs J Tomkinson, Headteacher
3. First Aid (First Aid At Work) Paediatric First Aid	Mrs M Jervis, Mrs J Callander Mrs S Cooper, Mrs J Shaughnessy
4. Fire Precautions; Drills, Exits, Extinguishers	Mr P Davies, Caretaker
5. Building Maintenance (Control of Contractors)	Mr P Davies, Caretaker FM Assist
6. Safety Inspections	Safeguarding Committee Jeanne Fairbrother Associates
7. Manual Staff (information, instruction)	Mr P Davies, Caretaker
8. Purchasing Equipment and Products	Mrs H Burgess, Business Manager
9. Security, Out of Hours Lettings	Mr P Davies, Caretaker
10. Trips and Visits	Mrs S Cooper, Educational Visits Co-ordinator
11. Risk Assessment Management	Mrs J Tomkinson, Headteacher
12. Management of Water Hygiene	Hertel
13. Management of Asbestos	Mr P. Davies, Caretaker

2.7. Emergency Contacts

In case of an emergency outside of school hours.

i) Headteacher: Mrs J Tomkinson

Address:
XXXXXXXXXXXXXXXXXX

Tel No: XXXXXXXXXXXXXXX
XXXXXXXXXXXXXXXXXX

iii) Caretaker: Mrs P Davies

Address:
XXXXXXXXXXXXXXXXXX

Tel No: XXXXXXXXXXXXXXX
XXXXXXXXXXXXXXXXXX

ii) Deputy Head: Mrs S Cooper

Address:
XXXXXXXXXXXXXXXXXX

Tel No: XXXXXXXXXXXXXXX
XXXXXXXXXXXXXXXXXX

iv) Chair of Governors:
Mrs N Milford

Address:
XXXXXXXXXXXXXXXXXX

Tel No: XXXXXXXXXXXXXXX
XXXXXXXXXXXXXXXXXX

Press Office	691 8202
Risk and Insurance	666 3313

3. ARRANGEMENTS

3.1. Accident Reporting

In accordance with the Local Authority Incident Reporting Procedure employees must report:

- Accidents, dangerous occurrences, and near misses on the standard Local Authority Incident and Dangerous Occurrence Report (M13) form.
- Violent incidents and verbal abuse on the standard Local Authority Incident Report (MV92) Form.

Copies of these forms are available from the school office.

The Head teacher/Centre Manager will countersign the report form before the original copy is sent to the CYPD's Health & Safety Section. A copy should also be retained at the establishment.

Individual accident report forms located in the medical room are used to record all minor incidents to children and young people and school staff. More significant incidents and those involving visitors, contractors and members of the public must be reported to CYPD's Health & Safety Section using the forms described above.

Accident statistics will be monitored for trends and a report made to the Governors/Senior Leadership Team, as necessary.

The Head teacher will investigate accidents and take remedial steps to avoid similar instances recurring. Faulty equipment, systems of work, plant, equipment, fittings etc, must be reported and attended to as soon as possible.

Recording non-reportable near misses is *not* a statutory requirement but doing so and using the information provided is good safety management practice as reviewing the report (at the time and/or periodically) may help to prevent a re-occurrence. Recording these near misses can also help identify any weaknesses in operational procedures as deviations from normal good practice may only happen infrequently but could have potentially high consequences.

A review of near misses over time may reveal patterns from which lessons can be learned. Where a review of near miss information reveals that changes to ways of operating, risk assessments or safety management arrangements are needed, these changes should be put into effect.

3.1.1. Reporting to the Health and Safety Executive (HSE).

In the event of

- a fatality or major injury;
- these incidents will be reported immediately to the Jeanne Fairbrother Associates (07834189236), who will notify the appropriate enforcing authority, Health & Safety Executive.

See also **Local Authority Health and Safety Management Arrangements for Accident and Incident Reporting and Investigation available on Wescom Website “Health & Safety”**

RIDDOR (Staff) Certain injuries, absence MUST be reported to the Health & Safety Executive	Work related deaths, major injuries (<i>Any fracture (except fingers, thumbs or toes), loss of sight, any amputation or dislocation, any injury from electric shock or electric burn</i>), work related diseases (<i>must have a doctors note which confirms the diagnosis</i>), a work related injury which results in hospitalisation (<i>whether for treatment or observation</i>). Over 7 day injury category, where an employee is away from work or unable to perform their normal work duties for more than 7 consecutive days (<i>excluding the day of the accident</i>). Contact Jeanne Fairbrother for more information
RIDDOR (Non staff) Where a visitor, contractor or other non-employee is injured on council premises or elsewhere and is taken from the scene to a hospital.	The guidance requires <u>that in addition to being taken to hospital</u> , the accident must arise ‘out of or in connection’ with work. The factors determining this are whether the accident was caused by the manner of conducting our undertaking e.g. supervision, safe systems of work, competence of employees or was attributable to the condition of the equipment or premises. E.g. unsafe conditions, poor condition of premises.
Lost Time Accidents (Staff)	Accidents which are not RIDDOR reportable but involve lost time from

NB

The school is still required by law to keep records of accidents where individuals have been incapacitated for more than 3 days, eg absent from work and or change in duties as a result of the work-related accident/illness

3.2. Asbestos

The Local Authority Health and Safety Management Arrangements Asbestos in the Workplace can be downloaded from the Council’s Intranet. Please contact Asbestos Technical Officer or FM Assist for further advice.

The asbestos register is held in the school office and will be made available to all staff and visiting contractors and their employees prior to carrying out inspections, maintenance, repair or construction activities This includes even small jobs such as installing telephones or computers, putting up shelving or installing security services.

The responsible persons (Mrs J. Tomkinson and Mr P. Davies) shall ensure:

- The asbestos log is maintained and that any changes are notified to the Local Authority, Technical Services Department and FM Assist immediately.
- **All** work on the fabric of the building or fixed equipment is entered in the permission to work log and signed by those undertaking the work.
- A six monthly visual inspection of asbestos containing materials on site is conducted, recorded in the asbestos log and a copy sent to the Local Authority's Asbestos Management Team, Technical Services, Cheshire Lines, (0151 606 2353) and FM Assist

Please note that even drilling a hole or pushing a drawing pin into asbestos containing materials may result in the release of fibres into the air.

Under no circumstances must staff drill or affix anything to walls without first obtaining approval from the responsible person

Any damage to materials known or suspected to contain asbestos should be reported to Mr P. Davies who will contact the FM Assist for advice.

Any contractor who is suspected to be carrying out unauthorised work on the fabric of the building must be reported to Mrs J. Tomkinson.

3.3. Chemical Safety

Greasby Infant School recognises its duty of care to employees, visitors, contractors and members of the public and all reasonable steps will be taken to secure the health and safety of employees. The Control of Substances Hazardous to Health (COSHH) Regulations place a duty on the employer to assess the risks to the health of employees and other persons posed by the use of toxic, harmful, irritant and corrosive substances and, to put in place, to eliminate or control that exposure.

The school will take all reasonable steps to purchase non hazardous products wherever possible.

3.3.1. Assessments

Risk assessments are available on request for cleaning/maintenance substances purchased from the Council's Central Procurement List.

It is the responsibility of Mr P. Davies to ensure that for other products purchased outside the preferred supplier, Health and Safety Data Sheets are requested from either the supplier or manufacturer and a suitable and sufficient risk assessment must be carried out where it is identified that there is a significant risk.

3.3.2. Information

Sufficient information will be given to all employees using harmful, toxic, irritant and corrosive products as regards to the safe use, handling and storage, and protective equipment/clothing to be used. Copies of assessments will be available to all employees and are located in the caretaker's room. Any additional information will be requested from FM Assist.

3.4. Contractors

Contractors are appointed following the corporate procurement procedure and three quotes are obtained **and**;

- The suitability and competence of the contractor is taken into consideration.
- Detailed risk assessments and method statements are provided by the contractor for the requested works (contact Jim Cookson for support).
- They obtain a permit to work or permission to undertake works which may involve hot work, asbestos removal, use of hazardous substances etc
- Information, instruction and training is provided where necessary to contractors on anything which may affect their health and safety.
- The co-operation and communication between all parties involved, to ensure the health and safety of all the workplace and anyone who is likely to be
- All contractors must report to the school office where they will be asked to sign the visitors book and wear an identification badge.
- Contractors will be issued with guidance on fire procedures, asbestos management, local management health and safety arrangements and vehicle movement restrictions.

Mrs J. Tomkinson, Mrs H. Burgess and Mr P. Davies are responsible for monitoring areas where the contractor's work may directly affect staff and pupils and for keeping records of all contractor work. This will include checking that

- Work is carried out in accordance with the risk assessment and method statement.
- They have sufficient knowledge of the work being undertaken in their building so that they can ensure the work is being managed and supervised.
- The contractor is escorted to their place of work and informed of local emergency procedures.
- They provide information including details of any risks that other parties could not reasonably know about e.g. see asbestos management.
- They make staff aware of any works being undertaken and of any temporary hazards they may come into contact with.
- They report and accidents/incidents or near misses which contractors are involved in.
- They challenge any unsafe working practices.

See FM Assist website (fmassistuk.com) for more information

3.5. DSE - Display Screen Equipment

It is the responsibility of Mrs H. Burgess to ensure that Display Screen Equipment Self Assessment Checklists are completed by staff as detailed below.

All staff who habitually use computers as a significant part of their normal work e.g. admin staff, bursars etc are required to complete the Display Screen Self Assessment Checklist with their Line Manager. (Significant is taken to be continuous / near continuous spells of an hour at a time).

This form is available on the CYPD Wescom Website

Those staff identified as DSE users shall be entitled to an eyesight test for DSE use every two years by a qualified optician (and corrective glasses if required specifically for DSE use).

It is the responsibility of the Line Manager and individual to ensure that all remedial actions are completed within a reasonable time scale.

3.6. Educational Visits

Well planned and executed educational visits provide our pupils with valuable experiences which enhance their learning at school. Providing a variety of 'real-life' opportunities for our children enables them to achieve a fuller understanding of the world around them through direct experience. Educational visits are an essential element of good practice.

Purposes

Educational Visits can provide stimulus and support to work being covered as part of the school curriculum. It may be that a visit provides an effective stimulus at the start of a unit of work; alternatively teachers may decide to use an educational visit at any time during a project to enhance and support the curriculum.

Wherever or whatever the venue, teachers should ensure that the educational benefits to the children are maximised.

Guidelines

The organisation of an educational visit is crucial to its success. With rigorous organisation and control, a visit should provide a rich, learning experience for the pupils.

EVOVLE is now in use in Wirral Schools and in accordance with the Local Authority's Guidance for the Management of Learning Outside the Classroom

(LOtC) and Offsite Visits, it is a requirement that all school's use the EVOLVE system.

The system automatically sends notification of visits required to be notified to the LA through to Children & Young People's Department Offsite Visits Adviser.

The Educational Visits Coordinator (Mrs S Cooper) will be required to implement the guidance as appropriate when the school undertakes offsite visits.

Outdoor Education Advisers' Panel <http://www.oeap.info/>

3.7. Electrical Safety

All staff should monitor the condition of plugs, cables and electrical equipment prior to use.

All portable items of electrical equipment will be subject to PAT (portable appliance testing) in accordance with Local Authority Health and Safety Management Arrangements for Portable Appliance Testing and Inspection, conducted by PAT 247 Ltd. **See FM Assist Website for Arrangements for Portable Appliance Testing**

Personal items of equipment (electrical or mechanical) should not be brought into the school without prior authorisation and subjected to the same tests as school equipment.

Most people are aware of the health and safety hazards associated with electricity. To avoid injury, or worse, it is essential to adopt the following precautions.

3.7.1. Faulty Equipment

1. Report faults immediately. Do not use or continue to use faulty equipment.
2. Do not carry out repairs, etc, or even fit plugs.

The Health and Safety Executive has indicated that cost effective maintenance of portable electrical equipment can be achieved by a combination of actions at three levels:

- a) checks by the owner/user of the equipment;
- b) formal visual inspections by a person appointed to do this;
- c) combined inspection and testing by a competent person or contractor.

3.7.2. User Checks (Visual)

Each time an item of electrical equipment is used a quick visual check should be made to verify that:

- a) the item is in good working order;
- b) there is no damage, e.g. cuts, to the cable sheath;
- c) there is no damage to the plug, e.g. bent pins or cracked casing;
- d) the socket is not overloaded – although the demand for power sockets in classrooms is often greater than the number of sockets available, the temptation to plug multi-socket into multi-socket must be resisted;
- e) the coloured insulation on the internal wires is not protruding from the plug or equipment;
- f) the equipment is not wet or excessively dusty;
- g) there is no obvious damage to the outer casing of the equipment, e.g. loose screws;
- h) there is no evidence of overheating, e.g. scorch marks;
- i) extension leads are not a tripping hazard – if extension leads cannot be arranged so that they are well clear of circulation areas, they should be taped down or one of the proprietary cable holders should be used.

This should be part of everyday practice and the equipment must not be used if the visual check is not satisfactory.

3.7.3. Combined Inspection and Testing by a Competent Person or Contractor

The School, in accordance with the Local Authority's Procurement Procedures will use the recommended competent contractor for repairs and PAT testing of portable appliances within Children and Young People's Department establishments.

An inventory of all electrical equipment is held on the premises in the school office. It is the responsibility of all staff to notify Mrs H. Burgess when new appliances/equipment have been purchased to ensure they are recorded on the inventory.

3.7.4. Guidance on fuses for appliances

3 Amp for most appliances up to 720 Watts(W)	13 Amp for appliances rated over 720 Watts (W)
---	---

Radios Table Lamps Soldering Irons TV's* Electric Blankets Audio and Hi-Fi Slow Cookers *Some TV manufacturers recommend a 5 amp fuse	Irons, Kettles, Fan Heaters Electric Fires, Lawn Mowers** Toasters, Deep Fat Fryers Refrigerators, Freezers Washing Machines Tumble Dryers Vacuum Cleaners **Always use a residual current device (circuit breaker)
Sockets Avoid multi-way adapters. Remember "one appliance, one socket" is safest; an overloaded socket can overheat and cause a fire.	

3.8. Emergency Planning

Definition of an emergency

"An event – or events – usually sudden, which involve the experience of significant personal distress to a level which potentially overwhelms normal responses and procedures which is like to have emotional and organization consequences."

The purpose of the school's emergency management plan is firstly to allow consideration of various types of emergency and how the school is placed to deal with them, and secondly to give the school community confidence when faced with a crisis.

Staff will be briefed on the contents of the school's emergency plan and their roles and responsibilities on induction and an annual refresher at the start of each school year.

Training and exercising can help ensure it is fit for purpose and that the procedures outlined in the plan for dealing with an emergency can be carried out effectively if an emergency does occur. The school will carry out a table top exercise, simulating an emergency situation, at least once per year.

It is the responsibility of all staff to ensure that they provide accurate contact details and notify Mrs H. Burgess immediately of any changes.

Greasby Infant School's Emergency Plan can be found in the school office, the headteacher's office and a copy is held off site by the Headteacher and the Deputy Headteacher.

The Local Authority has emergency plans that link in to a national strategy for dealing with crises and which include all the emergency services.

3.9. Extended Schools and Lettings

Lettings are managed by Mrs H. Burgess following **Local Authority Guidance Document HS/ECS/061 “A Management Guide to Extended Services in and around Schools”** available from Wescom Website “Health & Safety”

The school hall is used two evenings a week by the Girl Guide Association, who carry out their own risk assessments, fire and emergency procedures and have their own public liability insurance. Copies of risk assessments are given to the school.

3.10. Fire

Mrs J. Tomkinson is the Responsible Person for ensuring the fire risk assessment is undertaken and implemented following guidance contained in the [HM Government Fire Safety in Educational Premises Regulatory Reform \(Fire Safety\) Order 2005](#)

Guidance documentation and model risk assessments are available for Primary Schools and Secondary Schools available from Wescom Website.

The fire risk assessment is located in the school office and reviewed on an annual basis. The findings of the risk assessment should form the basis of any training to be given to staff, children and young people, visitors, contractors and third party users.

3.10.1. Fire Instructions

These documents are made available to all staff and included in the establishment's induction process

An outline of evacuation procedures are made available to all contractors / visitors and are posted throughout the site.

Where activities are being provided by non-school/centre staff such as a third party provider, the school/centre will provide appropriate information, instruction and training on the establishment's emergency procedures and, if there is no member of staff present at the time of the activity, ensure the providers have access to a telephone.

Emergency exits, fire alarm call points, assembly points etc are clearly identified by safety signs and notices. The locations of the above are identified on the school's

site plan.

3.10.2. Emergency Procedures

A Fire Plan detailing key roles and responsibilities in the event of a fire will be issued to all staff, contractors and third party users and a copy will be kept in the fire log book. See attached model plan.

Fire Safety Plan - Roles and Responsibilities

Head Teacher	Overall responsibility Oversee evacuation Call Fire Brigade Liaise with Fire Authority
Caretaker	Check fire alarm panel to determine location Ascertain if there is in fact a fire. At no time should the individual put themselves at risk. Call Fire Brigade Sweep of building on way out Meet with fire authority at main gate to direct to location
Admin Staff	Collate registers and visitors log book
Cook	To ensure full safe evacuation of all staff and to complete roll call.
Teaching staff	Evacuation of all pupils in their charge
Pre-School Leader	To ensure full safe evacuation of all pupils and to complete roll call.
Support staff	Staff who do not provide 1:1 support will be required to sweep all ancillary areas on the way out. Where possible they should close doors and windows. At no time should they put themselves at risk.
Midday Assistants	All teaching staff will report to the fire assembly point to support MDAs. Support staff will carry out sweep of building – toilets, resource areas, etc. MDAs will

escort children to the playground and assemble children at fire assembly point.

1:1 Support

Pupils who require assistance will be supported by specific TAs

3.10.3. Storage

Care must be exercised when storing combustible materials, egg paper, cardboard, wood, materials, etc, should not be stored under stairs, electrical intake cupboards, boiler rooms, restricting access, etc. Flammable and chemical products must be stored in a locked metal cabinet.

The school will maintain an inventory of all substances on site, giving details of location within the building. All hazardous substances used in Science, Design Technology and Art must be stored in accordance with CLEAPSS guidance.

www.cleapss.org.uk

3.10.4. Displays

Display materials and decorations

Displays are often located in corridors and in entrance foyers, and generally comprise of materials such as paper, cardboard and plastic which provide a means for the rapid spread of fire. You should evaluate what material could ignite first and what would cause the fire to develop and spread, and assess how materials used in temporary or permanent displays would interact with surface linings and position them accordingly. To reduce the risk of fire spread, you should consider the following:

- Avoid the use of excessive displays in corridors and foyers
- Minimise the size and number of display areas to discrete, separated areas
- Do not put any displays down stairways which are part of a designated escape route or where there is only one direction of escape (i.e. dead-end conditions)
- Treat displays with proprietary flame retardant sprays
- The use of display boxes
- Keep displays away from curtains, light fittings and heaters
- Keep displays away from ceiling voids which may lack fire barriers
- Ensure that there are no ignition sources in the vicinity
- Ensure displays do not obstruct escape routes or obscure fire notices, fire alarm call points, firefighting equipment or escape signs.

A limited amount is recommended by the Fire Authority, i.e. up to a maximum 20% display of the total surface area, limiting display to 3m in length with a 1m fire break.

3.10.5. Fire Drills

Fire drills will be conducted at least once per term and where there have been changes of use, change of equipment, personnel, activities which may risk increase the risk of fire. A member of the Senior Management Team will be appointed to organise fire drills and should keep a record of the drill as shown below:

Date of Drill	
Approximate No. of Participants	
Optimum Evacuation Time	Actual Evacuation Time
All present to roll call?	
Person Responsible for Drill	
Type and Extent of Drill	
General Assessment of Drill	
Action Taken	

Monitoring and debrief

Throughout the drill the responsible person and nominated observers should pay particular attention to:

- communication difficulties with regard to the roll call and establishing that everyone is accounted for;
- the use of the nearest available escape routes as opposed to common circulation routes;
- difficulties with the opening of final exit doors;
- difficulties experienced by people with disabilities or young children;
- the roles of specified people, e.g. fire wardens;
- inappropriate actions, e.g. stopping to collect personal items, attempting to use lifts, etc.; and windows and doors not being closed as people leave without risk to individuals.

On-the-spot debriefs are useful to discuss the fire drill, encouraging feedback from everybody. Later, reports from fire wardens and observations from people should be collated and reviewed. Any conclusions and remedial actions should be recorded and implemented.

3.10.6. Fire Safety Training

Fire and emergency evacuation procedures are detailed in the staff handbook and fire log book and a summary posted in all teaching and non-teaching areas.

All staff will be required to attend site specific training on the school's fire safety procedures and emergency evacuation plan on induction, annual refresher, when there has been a change of use, equipment, people, activities and always after a reported incident.

Fire Marshals

All staff are considered to be fire marshals as they have specific responsibilities for assisting the safe evacuation of children and young people in their charge. The school will access training from the Jeanne Fairbrother Associates to provide staff with appropriate information, instruction, training and supervision to ensure they have an in depth knowledge of the school's fire emergency evacuation plan and their role in implementing it.

FIRE SAFETY INFORMATION –

It is the responsibility of each member of the Senior Leadership Team to ensure that all employees are aware of the Fire Safety Procedures. Information should include the following:

1. Fire detection systems – how they operate and what action to take.

- ◆ Automatic smoke/heat detectors. In the event of a fire, the detectors are activated. These are linked to the Fire Alarm which will in turn activate the fire alarm, giving the signal to all staff to evacuate the building.

2. Location of Fire Alarm Call Points

- ◆ Employees must familiarise themselves with location of fire alarm call points as they move around the building eg: toilets, hall, classrooms.
- ◆ Fire alarms are tested out of school time, and staff will be informed if this needs to take place at any other time.

3. Emergency evacuation routes

- ◆ Identify at least two means of escape from the workplace.
- ◆ Employees must familiarize themselves with location means of escape as they move around the building eg: toilets, hall, classrooms.
- ◆ Staff to be instructed on how to operate all doors fitted with an over-ride system (break glass green coloured boxes located at side of door and/or fire alarm call point).

4. Location of Assembly Point

- ◆ *Main playground*

5. Fire Marshal's are Mrs J. Tomkinson, Mrs S. Cooper, Mrs L. Pollitt, Mrs H. Burgess and Mr P. Davies

6. Action to be taken on hearing the Fire Alarm

- ◆ Leave the building at once, quickly and calmly by the nearest safest exit.
- ◆ In the event of lone-working situation staff must summon the emergency services by dialling 9-999.
- ◆ Do not stop to collect personal belongings.
- ◆ Assist with the evacuation of children and visitors.
- ◆ As you leave the building, close all doors on the way out.

7. Action to be taken on discovery of a fire

- ◆ Raise the alarm by breaking the glass on the nearest fire alarm call point.
- ◆ In the event of lone-working situation staff must summon the emergency services by dialling 9-999.
- ◆ Leave the building at once, quickly and calmly by the nearest safest exit.
- ◆ Do not stop to collect personal belongings.
- ◆ Assist with the evacuation of children and visitors.
- ◆ As you leave the building, close all doors on the way out.

In the event of an evacuation employees **must not:**

- ◆ re-enter the building unless given permission to do so by the Senior Fire Authority's Officer
- ◆ Move their vehicles unless given permission to do so.
- ◆ Leave the premises unless given permission to do so.

8. Responsibility for visitors

It is the responsibility of the Host to ensure safe evacuation of their visitors.

9. Identifying and Reporting Defects

All staff have a responsibility to report any defects which pose a risk to the health, safety and welfare of themselves **and others.**

10. Identify fire risks in the workplace

- ◆ Council's no smoking policy
- ◆ Electrical Equipment including use of extension lead
- ◆ Use of personal electrical equipment is prohibited
- ◆ Housekeeping – do not store combustible materials near potential sources of ignition.
- ◆ See Emergency Plan related to Terrorist Action

11. Employees Responsibilities

- ◆ Housekeeping – safe storage of equipment and materials

- ◆ Visual inspections of equipment
- ◆ Report defective equipment
- ◆ Correct and safe use of equipment
- ◆ Ensuring all means of escape routes, fire doors, fire alarm call points and emergency lighting are kept free from obstruction at all times. If it is within the capability of the individual to do something about it they should do it immediately. If not they should report to the Head Teacher immediately.

3.10.7. Personal Emergency Evacuation Plans (PEEP)

The school has a responsibility for the safety of their staff, pupils and visitors, providing instruction and training and taking into account the special needs of individuals, such as those with disabilities.

It is the responsibility of the school to provide an emergency evacuation plan for all persons on site including individuals with physical/sensory impairments who require assistance. Where individuals require assistance, a personal emergency evacuation plan (PEEP) is required and should be tailored to meet the needs of the individual. This must be agreed between the responsible person and the individual requiring support and in the case of a pupil the parent/carer.

See PEEP for:

3.10.8. Means of Escape

Daily visual checks, which are not normally recorded, will be carried out by Mr P. Davies to ensure that all routes are kept free from obstruction at all times and that all final exit doors are operational.

All escape routes are marked on the school's floor plan a copy of which is maintained in the fire log book.

3.10.9. Fire Fighting Equipment

Suitable and sufficient numbers of fire extinguishers are located across all areas of the school. These must be clearly visible and kept free from obstruction at all times.

Location and type of fire fighting equipment will be clearly marked on the school's floor plan a copy of which is maintained in the fire log book.

Staff with no training should not attempt to extinguish a fire, however all staff should be familiar with the location of the appliances.

Staff who are expected to take a more active role will be provided with extinguisher training.

All staff have received fire extinguisher training 7.6.23

3.10.10. Fire Alarm Systems

The school fire alarm and detection system operated the community patrol smoke detection system. Staff need to activate the fire alarm by breaking the break glass if a fire is detected.

Location and type of detectors and manual call points will be clearly marked on the school's floor plan a copy of which is maintained in the fire log book.

3.10.11. Emergency Lighting

School to detail the extent of provision of emergency lighting, both internal and external.

Location of emergency lighting and test keys will be clearly marked on the school's floor plan a copy of which is maintained in the fire log book.

3.10.12. Inspection, Service and Maintenance

a) Testing of the Fire Alarm System

Fire alarm call points will be tested weekly in rotation by Mr P. Davies and a record kept in the Fire log book. Normally regular testing of fire alarms will occur out of school hours.

Any defects on the system will be reported immediately to the Atlas Fire and Security 0151 691 1212.

A fire alarm maintenance contract is in place with Atlas Fire and Security 0151 691 1212 for the annual inspection, service and maintenance of the system.

Smoke and heat detectors are tested on a quarterly basis by Atlas Fire and Security 0151 691 1212

Test records are located in the site's fire log book.

b) Inspection of Fire Fighting Equipment

Jacksons Fire and Security Solutions 0151 329 2959 undertakes an annual maintenance service of all fire fighting equipment.

Jacksons Fire and Security Solutions will check that all fire fighting equipment is available for use and operational and for any evidence tampering at least termly using the Fire Marshal Checklist. A record of inspections will be maintained in the fire log book.

Defective equipment or extinguishers that need recharging should be taken out of service and reported direct to Jacksons Fire and Security Solutions

c) Testing of Emergency Lighting Systems

These systems will be tested monthly by Mr P. Davies and annually by Atlas Fire and Security 0151 691 1212

Test records are located in the site's fire log book.

d) Inspection of Fire Doors

Mr P. Davies will carry out daily visual checks for any obstructions on exit routes and ensures all final exit doors are operational.

Mr P. Davies will carry out formal checks using the Fire Marshal checklist at least termly on all fire doors to ensure that they are in good condition, close firmly into their rebates and that all smoke seals and intumescent strips undamaged. Records of inspection are located in site's fire log book.

e) Testing of Manual/Automatic Hold Open Devices

Mr P. Davies will ensure that all hold open devices are fully operational on testing of the fire alarm. All defects to be recorded and records maintained in the fire log book.

f) Record Keeping

All documentation relating to fire safety including inspection, service, maintenance and repair records must be maintained in the school's fire log book located in the school office.

Please note

Emergency contact and key holder details are maintained by Mrs H. Burgess and provided to Atlas Fire and Security.

3.11. First Aid

FIRST AID BOXES ARE LOCATED AT THE FOLLOWING POINTS:

Medical Room
Pre-School classroom
Foundation 2 toilets
Hall
Kitchen

When assessing first aid needs it is recommended that the likely risks to pupils and visitors, as well as to staff, are included.

Guidance to risk assessment

- The size of the school, and whether it is on split sites or levels. If so, the assessment needs to encompass additional first-aid provision and the deployment of adequate first-aid personnel cover.
- The location of the school in relation to the emergency services. It is good practice to inform the local emergency services in writing of the school's location and any circumstances that may affect access to the school. Emergency services should also be given clear instructions regarding where and to whom they should report on arrival at the school.
- Any specific hazards or risks on site, e.g. hazardous substances, dangerous tools

or machinery, or temporary hazards such as building and maintenance work.

- Any specific health needs or disabilities of pupils or staff and the age range of pupils: these can affect the type of first-aid provision and materials required. (First-aid organisations can provide advice on training for first-aid personnel in schools). When considering how many first-aid personnel are required the governing body or head teacher will also consider:
- Adequate provision for lunch times and breaks. It is good practice to encourage lunchtime supervisors to undergo first-aid training.
- Adequate provision for leave and in case of absences.
- First-aid provision for off-site activities, e.g. educational visits.
- Adequate provision for practical areas such as science, technology, home-economics and physical-education departments.
- Provision for out-of-school-hours activities, e.g. sports and clubs.
- Agreements with contractors (e.g. school meals providers) on joint first-aid provision for their employees.
- Provision for trainees working on-site. They have the same status as staff for health and safety purposes
- Agreed procedures for emergencies in isolated areas, e.g. on the playing field. Accident statistics can indicate the most common injuries, times, locations and activities involved at a particular site. These statistics can be a useful tool in risk assessment, highlighting areas to concentrate on and tailor first-aid provision to.
- The governing body or head teacher should review the school's first-aid needs at least once a year to ensure the provision is adequate and standards are being met.

Source: *Guidance on First Aid for Schools: A Good Practice Guide*.

The First Aid Coordinator is responsible for regularly checking that the contents of first aid boxes are complete and replenished as necessary. A check should be made at least termly.

The following staff are available to provide first aid

TRAINED TO FIRST AID AT WORK LEVEL:

The Head teacher/Business Manager will ensure that First Aiders have a current certificate and that new persons are trained should first aiders leave.

3.11.1. Transport to hospital

Where the first aider or Head teacher considers that hospital treatment is required the school should summon the emergency services for transport by ambulance. If, despite being fully appraised of the situation, the emergency service does not consider it necessary for transport by ambulance, but the school consider that further medical advice is required, the school should contact the pupil's next of kin. If the next of kin cannot be contacted and/or do not have access to own transport, the school can, **only** in these **exceptional** circumstances arrange to transport the injured person using their school staff transport.

Please note that that they must be accompanied by an additional responsible adult to support the injured person. A member of staff should stay with the injured child until their parents/guardians arrive at the hospital.

Please note:

All staff who are likely to use their own vehicles for business travel must have the appropriate business insurance, a valid MOT certificate (if required). It is the responsibility of the Head Teacher to check these documents together with the individual's driving licence making note of any endorsements on an annual basis and maintain appropriate records.

3.11.2. First Aid away from School Premises

A travel first aid kit is taken by an appointed member of staff when taking a group of children out of school.

The school will follow the procedure for completion of incident/accident records in accordance with Jeanne Fairbrother Associates guidance

3.11.3. Clinical Waste

In accordance with the "Duty of Care" - Code of Practice all swabs, tissues etc used for first aid treatment will be placed in the medical bin provided by the Authority and is located in the medical room.

Incontinence waste such as disposable nappies, stoma bag etc will be placed in the disposal unit provided by the Authority and is located in the medical room.

Items such as needles, syringes and other sharps will be placed in the "sharps bin" provided by the Authority and is located in the medical room.

3.11.4. Blood Spillages

**Guidance on Protection from Blood borne viruses and basic infection Control can be found on Jeanne Fairbrother Associates website:
jeannefairbrotherassociates.com**

3.11.5. Emergency Contact Numbers

NHS Direct	0845 4647
Accident & Emergency	0151 678 5111
Schools Nurse	0151334 4000 x 5201
Infection control Nurse	0151 604 7750
Public Health England	0844 225 1295

3.12. Housekeeping

It is the responsibility of all staff to maintain good standards of housekeeping across all areas of the school.

3.12.1. Floors and Gangways

Wet, greasy, dusty or dirty floors; spills or splashes of solids or liquids etc. Unsuitable floor surface or covering; trailing cables; congestion; obstructions; inadequate lighting.

3.12.2. Furniture and Fittings

Check circulation routes are not impeded by the arrangement of furniture. Check furniture is not damaged or unstable. Check no furniture is in a dangerous condition, (rough wood, splinters,

protruding screws, nails, loose components etc

3.12.3. Storage

Check accessibility, are shelf mountings secure, are shelves overloaded, are bulky items stored at waist height – not at high or low level, is storage logical and tidy, are storage areas kept secure, is access equipment available for high shelves egg kick stool or step ladder

3.12.4. Waste

Are there adequate containers for disposal of waste, are they emptied regularly, check for waste accumulating on escape routes

3.12.5. Welfare Facilities

Is there adequate storage for coats, personal belongings are facilities for making refreshments and eating snacks kept clean and tidy, is food stored in appropriate containers

3.12.6. Fire

Are flammable materials kept away from heat and ignition sources; stored in approved correctly labelled containers, are fire exits, call points, fire extinguishers clearly marked, and free from obstruction

3.12.7. Inspections

A general workplace inspection of the site will be conducted termly and be undertaken / co-coordinated by the Safeguarding Committee of the Governing Body and Mr P. Davies.

Monitoring inspections of individual areas will be carried out by SLT.

Inspections will be conducted jointly with the establishment's health and safety representative(s) and Jeanne Fairbrother representatives.

The person(s) undertaking the inspection will complete a report in writing and submit this to the head teacher/business manager

Responsibility for following up items detailed in the safety inspection report will rest with the Headteacher.

A named governor will be involved / undertake inspections on an annual basis and report back to the Safeguarding committee and full governing body meetings.

5.3	IS THERE A REGULAR CLEANING SCHEDULE (INCLUDING THE CLEANING OF WINDOWS, EMPTYING OF WASTE BINS ETC)?	√			

5.4	ARE ITEMS THAT ARE STORED AT HEIGHT (EG FILES/FOLDERS ON SHELVES) ACCESSIBLE, SECURE AND SAFE?	√			
5.5	ARE WALLS / WALL COVERINGS CLEAN AND IN GOOD CONDITION (EG PAINT NOT FLAKING, NO DAMP ETC)?	√			
5.6	ARE THE BOILER ROOM AND ELECTRICITY CUPBOARD AREAS KEPT FREE OF COMBUSTIBLE MATERIALS?	√			
6.ELECTRICAL		Y	N	N/A	COMMENTS / ACTIONS NEEDED
6.1	ARE PORTABLE APPLIANCES (ITEMS WITH A PLUG) TESTED BY A QUALIFIED PERSON / HAVE A STICKER TO IDENTIFY THEY HAVE BEEN TESTED?	√			
6.2	ARE PLUGS, SOCKETS, SWITCHES ETC IN GOOD CONDITION (NOT BROKEN, CRACKED OR LOOSE ETC/) AND CHECKED PRE-USE BY STAFF?	√			
6.3	THE USE OF EXTENSION LEADS IS KEPT TO A MINIMUM, NOT OVERLOADED AND NOT 'DAISY CHAINED'. (NOTE: ONLY DOUBLE INSULATED/FUSED EXTENSION LEADS SHOULD BE USED)	√			
6.4	FIXED WIRING INSPECTED IN LAST 5 YEARS AND REMEDIAL ACTIONS COMPLETED?	√			FEB 21
7.TOOLS / EQUIPMENT		Y	N	N/A	COMMENTS / ACTIONS NEEDED
7.1	IS THERE A SYSTEM IN PLACE TO VISUALLY INSPECT ALL TOOLS & EQUIPMENT USED WITHIN THE SCHOOL AT REGULAR INTERVALS?	√			
7.2	ARE TOOLS & EQUIPMENT (INCLUDING LADDERS) STORED SECURELY & OUT OF REACH OF UNAUTHORISED PERSONS?	√			
7.3	HAS TRAINING AND INSTRUCTION BEEN GIVEN TO THE RELEVANT MEMBERS OF STAFF IN THE SAFE USE OF TOOLS & EQUIPMENT?	√			
7.4	LADDER REGISTER AND CHECKLIST IN PLACE AND REVIEWED TERMLY?	√			
7.5	IS THERE SUFFICIENT ACCESS EQUIPMENT TO ALLOW STAFF MEMBERS TO REACH HIGH AREAS SAFELY?	√			
8.D&T / SCIENCE / ARTS AREAS		Y	N	N/A	COMMENTS / ACTIONS NEEDED
8.1	MAINTENANCE / SERVICE RECORDS AVAILABLE FOR EQUIPMENT (CHECKED BY COMPETENT PERSON IN PAST 12 MTHS)			√	
8.2	MACHINERY SAFELY POSITIONED AND ALL MOVING PARTS GUARDED OR HAVE A BARRIER TO PREVENT CONTACT? (THE HEAD OF DT WILL BE ABLE TO ASSIST IN THIS AREA IF NEEDED)			√	
8.3	ARE THE MACHINES CLEAN? (FREE OF EXCESSIVE OIL, DUST ETC)?			√	
8.4	ARE THE EMERGENCY STOP BUTTONS CLEARLY MARKED AND EASILY REACHED?			√	

8.5	IS THERE PERSONAL PROTECTIVE EQUIPMENT AVAILABLE (EG GOGGLES, DUST MASKS) AND IS IT CLEARLY LABELLED, EASILY ACCESSIBLE AND WELL MAINTAINED?			√	
8.6	SAFETY RULES DISPLAYED IN WORKROOMS			√	
8.7	PREP ROOM, WORKSHOPS, LABS ETC. LOCKED WHEN NOT IN USE			√	
8.8	ARE THERE BLUE MANDATORY SAFETY SIGNS DISPLAYED NEAR WORKSHOP MACHINERY (EG GOGGLES MUST BE WORN)?			√	
8.9	IS MACHINERY THAT CAN ONLY BE OPERATED BY PERSONS OVER 18 YEARS OLD SECURED TO PREVENT UNAUTHORISED ACCESS? (EG ISOLATED BY KEY, LOCKED IN SEPARATE AREA)			√	
8.10	HAVE WRITTEN RISK ASSESSMENTS BEEN COMPLETED FOR EACH PIECE OF MACHINERY?			√	
8.11	HAVE FUME CUPBOARDS/LEV BEEN TESTED IN THE LAST 12 MTHS?			√	
8.12	ARE EYEWASH FACILITIES EASILY ACCESSIBLE AND KEPT STERILE?			√	
8.13	CLEANING STAFF AWARE OF POSSIBLE HAZARDS WITHIN DEPARTMENT			√	
9.HAZARDOUS SUBSTANCES		Y	N	N/A	COMMENTS / ACTIONS NEEDED
9.1	IS THERE A CENTRALLY HELD COSHH FILE WITH UP TO DATE (AUDITED IN THE LAST 12MTHS) INVENTORY OF CHEMICALS AND DATA SHEETS?	√			
9.2	ARE HAZARDOUS SUBSTANCES STORED IN A LOCKED ROOM / CUPBOARDS?	√			
9.3	ARE SUBSTANCES USED IN SCIENCE SUBJECTS STORED / USED IN ACCORDANCE WITH THE CLEAPSS GUIDANCE AND HAZ-CARDS?			√	
9.4	IF CHEMICALS HAVE BEEN DECANTED INTO OTHER VESSELS (EG SPRAY BOTTLES), IS THERE A LABEL TO IDENTIFY THE CONTENTS?	√			
9.5	ARE ALL CONTAINERS CLEARLY MARKED (EG IRRITANT, FLAMMABLE)?	√			
10.WELFARE		Y	N	N/A	COMMENTS / ACTIONS NEEDED
10.1	CLEAN DRINKING WATER AVAILABLE AND LABELLED AS SUCH?	√			
10.2	SELDOMLY USED WATER OUTLETS IDENTIFIED AND FLUSHED WEEKLY?	√			
10.3	FINGERGUARDS IN PLACE ON VULNERABLE DOORS I.E. TOILET & CLASSROOMS IN NURSERY, KS1 AND SPECIAL SCHOOLS	√			
10.4	IS THERE A SUITABLE AREA FOR STAFF MEMBERS TO REST AND EAT? (CLEAN, WITH SEATING)	√			
10.5	SUFFICIENT TOILET FACILITIES?	√			

10.6	ARE TOILETS CLEAN WITH WASHING FACILITIES? (INC SOAP, HOT WATER AND DRYING FACILITIES)?	√			
10.7	DOES THE SCHOOL HAVE A STRESS POLICY?	√			
10.8	ARE THERE FACILITIES FOR STAFF MEMBERS TO CHANGE CLOTHES / STORE CLOTHES?	√			
11. GENERAL WORK ENVIRONMENT		Y	N	N/A	COMMENTS / ACTIONS NEEDED
11.1	ALL DSE (COMPUTER) USERS IDENTIFIED AND WORKSTATIONS ASSESSED?	√			
11.2	HAVE THERE BEEN COMPLAINTS BY STAFF MEMBERS REGARDING LIGHTING, HEATING AND VENTILATION WITHIN THE SCHOOL?	√			KITCHEN COLD SO ADDITIONAL HEATERS PURCHASED AND CT PUT ON FIRST THING IN THE MORNING ON COLD DAYS
11.3	HAVE THERE BEEN ANY COMPLAINTS BY STAFF OF A LACK OF SPACE TO CARRY OUT WORK SAFELY?		√		
11.4	IS THERE SUFFICIENT EQUIPMENT TO ASSIST WITH MANUAL HANDLING TASKS? (EG TROLLEYS, SACK TRUCKS, HOISTS)	√			
11.5	GLAZING FILMED / SAFETY GLAZING TO BS 6206 IN VULNERABLE AREAS?(E.G. PANES >250MM WIDE IN OR ADJACENT TO DOORS, AREAS WHERE PE IS CONDUCTED ETC)	√			
11.6	NO SMOKING SIGNAGE IN PLACE AT ENTRANCES?	√			
12. OUTDOOR AREAS		Y	N	N/A	COMMENTS / ACTIONS NEEDED
12.1	ARE PATHWAYS / WALKWAYS STABLE UNDERFOOT AND WITHOUT SIGNIFICANT TRIP HAZARDS? (EG NO POTHOLES, NO RAISED /SUNKEN SLABS)	√			
12.2	PEDESTRIAN ROUTES CLEARLY DEFINED AND SEGREGATED FROM VEHICLES?	√			
12.3	IS OUTDOOR PLAY EQUIPMENT INSPECTED ANNUALLY BY INDEPENDENT PERSONS?	√			
12.4	IS OUTDOOR PLAY EQUIPMENT INSPECTED DAILY TO ENSURE SAFETY AND CLEANLINESS BEFORE IT IS USED?	√			
12.5	EXTERNAL LIGHTING ADEQUATE?	√			
12.6	GATES AND FENCING ADEQUATELY MAINTAINED?	√			
12.7	FRAGILE ROOF SURFACES IDENTIFIED BY SIGNAGE ON SITE ?	√			
12.8	ACCESS TO FRAGILE / LOW ROOFS RESTRICTED?	√			
12.9	SCHOOL RECEPTION CLEARLY SIGNED?	√			
12.10	EXTERNAL STORAGE / WASTE BINS SECURED AND LOCATED AWAY FROM BUILDINGS?	√			

Health and Safety Checklist for Classrooms

Questions		Yes/No/Not applicable	Further Action Needed
Movement around the classroom (slips and trips)	Is the internal flooring in a good condition?		
	Are there any changes in floor level or type of flooring that need to be highlighted?		
	Are gangways between desks kept clear?		
	Are trailing electrical leads/cables prevented wherever possible?		
	Is lighting bright enough to allow safe access and exit?		
	Are procedures in place to deal with spillages, eg water, bodily fluids?		
	For stand alone classrooms: <ul style="list-style-type: none"> Are access stops or ramps properly maintained? Are access stairs or ramps provided with handrails 		
Work at Height	Is appropriate step ladder or kick stool available for use where necessary – eg, accessing storage above head height, hanging of displays, etc.		
	Is a window opener provided for opening high level windows?		
Furniture and Fixtures	Are permanent fixtures in good condition and securely fastened, eg cupboards, display boards, shelving?		
	Is furniture in good repair and suitable for the size of the user, whether adult or child?		
	Are all screws fittings in place and secure?		
	Is portable equipment stable, eg a TV set on a suitable trolley?		
	Where window restrictors are fitted, are they in good working order?		
	Are hot surfaces of radiators etc, protected where necessary to prevent the risk of burns to vulnerable young people?		
Manual Handling	Have trolleys been provided for moving heavy objects, eg books, materials, stacker boxes, etc?		
	Are trolleys maintained in good condition?		
Computers and similar equipment	If you use computers as part of your job, has a workstation assessment been completed?		
	Have pupils been advised about good practice when using computers?		
Electrical equipment and services	Are fixed electrical switches and plug sockets in good repair?		
	Are all plugs and cables in good repair?		
	Has portable electrical equipment, eg laminators, been visually checked and, where necessary tested at suitable intervals to ensure that it is safe to use ? (There may be a sticker to show it has been tested)		
Asbestos	If the school contains asbestos, have details of the location and its condition in the classroom been provided and explained to you?		
	Have you been provided with guidance on		

	securing pieces of work to walls/ceilings that may contain asbestos?		
Fire	If there are fire exit doors in the classroom are the: <ul style="list-style-type: none"> • Unobstructed • Kept unlocked and • Easy to open from the inside? 		
	Is fire fighting equipment in place in the classroom?		
	Are fire evacuation procedures clearly displayed?		
	Are you aware of the evacuation drill, including arrangements for any vulnerable adults or children?		
Workplace ventilation and heating	Does the room have natural ventilation?		
	Can a reasonable room temperature be maintained during use of the classroom		
	Are measures in place, for example blinds, to protect from glare and heat from the sun?		

This is not an exhaustive list and you should identify any other hazards associated with the daily use of your classroom, including any further actions needed.

Additional Issues	Yes/No/Not Applicable	Further action Needed

Further action needed

Hazards noted	Action take and when

Name and position	Signature	Date
Location/name of classroom		

3.13 Legionella

Hertel are the nominated competent persons appointed to undertake Risk Assessments throughout the Local Authority. It is anticipated that these will be repeated every two years. The written report contains findings and recommendations.

The Hertel file can be found in the school office.

Statutory monitoring will be covered by monthly checks undertaken by Hertel and will address any issues that are highlighted by the Risk Assessment. Additional checks will be required particularly where there are showers and these requirements will be addressed individually by Mr P. Davies.

Technical Services are contracted by CYPD to undertake the management of the contract with Hertel and any queries should be directed to Technical Services, 666 2388.

3.14 Lighting

The school will ensure that each room or other space within the school will have lighting appropriate to its normal use and which satisfies any more specific requirements. The maintained illuminance of teaching accommodation must not be less than 300 lux on the working plane. Where visually demanding tasks are carried out there must be maintained illuminance of not less than 500 lux on the working plane. Light fittings must not produce a glare index of more than 19, where glare index measures the direct glare from light fittings which might be seen, for example, by someone looking up from their work. It is the responsibility of all staff to report any defects so that appropriate repairs can be instigated.

3.15 Lone working

Staff are encouraged not to work alone in school/centre. Work carried out unaccompanied or without immediate access to assistance should be risk assessed to determine if the proposed lone working activity is necessary.

Work involving potentially significant risks (for example work at height, operating dangerous equipment, etc) **should not** be undertaken whilst working alone.

Where lone working cannot be avoided staff should:

- Obtain permission from the Head teacher and notify him/her on each occasion when lone working will occur.
- Ensure they do not put themselves or others at risk. **Refer to Jeanne**

Fairbrother Associates website for the management of lone working

- Ensure they have means to summon help in an emergency e.g. access to a telephone or mobile telephone etc.
- When working off site, (e.g. when visiting homes), notify a colleague of their whereabouts and the estimated time of return. (It is good practice to obtain background information about the child/family being visited and also to pre-plan the route if the premises are unfamiliar.)
- Key holders attending empty premises where there has been an incident or suspected crime should do so with a colleague if possible. They should not enter the premises unless they are sure it is safe to do so. (*Atlas Security will either attend for you or collect the key-holder to attend*)
- Report any incidents or situations where they may have felt “uncomfortable”. Good communication between colleagues, in terms of personal safety is essential.

3.16 Manual Handling

All manual handling activities which present a significant risk to the health and safety of staff, whether they involve the manual handling of people or objects, will be reported to / identified by Mrs J. Tomkinson who will arrange for a suitable and sufficient risk assessment to be carried out.

Where it is not reasonably practicable to eliminate these activities a risk assessment will be carried out and the risk reduced as far as is reasonably practicable.

Appropriate information, instruction and training on the safer moving and handling Techniques will be provided to all staff that, as part of their job, are required to undertake these activities.

The written risk assessment will be provided to employees who must follow the instruction given when carrying out the task.

Staff should ensure they are not lifting heavy items and equipment unless they have received training and/or equipment in order to do so safely.

See Jeanne Fairbrother Associates website for Arrangements for Manual Handling

3.17 Management of Medicines

The school has agreed to administer medicines and will adopt the Local Authority’s Guidance for the “Supporting pupils at school with medical conditions” with support from Jeanne Fairbrother Associates.

Management of Medicines in Schools and Early Years Settings Checklist

Greasby Infant School

Checklist		Yes	No	Details
1.	Does the school have a written policy for administration of medicines in school?	X		Policy in medical room
2.	Has the school nominated responsible trained persons to administer medicines?	X		JH, SP, MJ
3.	Is there a clear statement on the roles and responsibility of staff managing administration of medicines, and for administering and supervising the administration?	X		Medical conditions policy
4.	Have nominated staff received appropriate information, instruction and training on the school's policy and procedures	X		School nurse, haemophilia nurse, diabetic nurse Meeting mins 2.9.19 whole school epipen training
5.	Does the school have procedures for managing medicines on trips and outings	X		Risk assess'ts, consent forms, specific provision
6.	Has the school received a written agreement from parents for any medicines to be given to a child	X		Consent letter in medical conditions file. Health Care Plan
7.	Has the school confirmed, in writing, that they agree to administer medicines	X		Discussion for short term. HCP for long term
8.	Is there guidance for children carrying and taking their medicines themselves		X	Adult supervision always given and safe storage
9.	Does the school maintain records for the administration of medicines	X		SIMS, medical conditions policy
10.	Do staff have access to the school's emergency procedures	X		Medical room, signed policy
11.	Is a health care plan required for the individual	X		SEN class files

Medicines Checklist

1.	Does the school have appropriate storage facilities taking into account temperature and security	X		Medical room or Tech room fridge
2.	Is the medicine in the original container	X		
3.	Is the container clearly labeled with the name of the child, the name and dose of the medicine, the frequency of administration, the time of administration, any side effects and the expiry date	X		Parents notified when out of date
4.	Are emergency medicines, such as asthma inhalers and adrenaline pens readily available	X		Classroom and medical room
5.	Does the school allow children to carry their own inhalers		X	Adult supervision

3.18 New and Expectant Mothers

Assessments on new and expectant mothers will be undertaken by Mrs J. Tomkinson following guidance from Jeanne Fairbrother Associates

It is the responsibility of staff to inform their line manager as soon as they know they are (or are no longer) pregnant.

The risk assessment will be reviewed on a regular basis as the pregnancy progresses.

3.19 Noise

The school will take all reasonable steps to ensure staff, pupils and visitors are not exposed to noise which may affect their health and safety.

3.20 Risk Assessment

3.20.1 General Risk Assessments

The school risk assessments will be coordinated by Mrs J. Tomkinson following guidance from Jeanne Fairbrother Associates

All workplace activities, locations and equipment involving teaching and non teaching (e.g. caretaking) staff, premises and one-off activities have been assessed and approved by the head teacher.

All staff are responsible for completing risk assessments for any activity deemed necessary. These risk assessments are available for all staff to view and are held centrally in the Headteacher's office.

Specific risk assessments relating to individual persons, e.g. staff member or young person/pupil are held on that person's file.

3.20.2 Curriculum Activities

Risk Assessments for Curriculum activities will be carried out by relevant Subject Leaders using relevant Health and Safety Codes of Practice for Design & Technology, Science, Art and PE etc.

3.20.3 Non-curriculum Activities

Risk assessments for non-curriculum activities will be carried out by the SLT in accordance with local authority guidance. These will include: midday supervision, playground activities, access to school premises before the start of and at the end of the school day, movement around the school, open/parents' evening, school productions, etc.

Risk assessments will be reviewed on an annual basis, when there has been a change in location, equipment, people and procedures and always after a reported accident and/or near miss. Staff will be made aware of any changes to risk assessments relating to their work.

Information regarding risk assessment and updates will be disseminated during staff briefing sessions, staff meetings and through Governor Minutes.

3.21 Security

The importance of ensuring the security of premises with regard to both people and property can not be stressed enough. Good security allows both staff and pupils to feel safe and confident in their surroundings.

The Governors recognise and accept their corporate responsibility to provide a safe and secure environment for children, employees and visitors to Greasby Infant School. The school's security procedures will operate within the framework described in this policy.

Where appropriate the Governors will seek any necessary expert advice to determine the security risks and precautions required to deal with them.

The Governing Body will provide staff with enough resources, information and training to implement the security procedures.

The Governing Body will, where appropriate, be informed of breaches and failures of the policy to enable them to take any corrective action as is necessary to ensure the safety of members of the school community.

The Governors will ensure that the school has a security policy and that this has been implemented. The headteacher is responsible for reviewing and updating the policy.

Governors will monitor the performance of the school security measures. This will be achieved through the Safeguarding Committee monitoring visits and through the Headteacher Report to Governors on a termly basis.

- Governors will periodically review the school's security policy.
- Governors will delegate the day to day implementation of the policy to the Head teacher and School Caretaker.

The Head teacher will:

- Set up arrangements in school that complies with the security policy agreed by Governors.
- Ensure that all staff within the school receive information, instruction and training in the security policy and procedures.

- Establish a system for the reporting, recording and investigation of breaches of the policy and take reasonable steps to prevent reoccurrence.
- Ensure that all visitors, contractors and agency staff adhere to the security policy.
- Monitor the implementation of the policy and security arrangements.
- This responsibility will be delegated to the School Business Manager.

A copy of the school's policy is located in the school office.

3.22 Stress Management

Greasby Infant School is committed to protecting the health, safety and welfare of our employees and recognise that workplace stress is a health and safety issue and acknowledge the importance of identifying and reducing workplace stressors.

The Health and Safety Executive define stress as “the adverse reaction people have to excessive pressure or other types of demand placed on them”. This makes an important distinction between pressure, which can be a positive state if managed correctly, and stress, which can be detrimental to health.

The school and governing body are committed to promoting high levels of health and well being and recognise the importance of identifying and reducing workplace stressors through risk assessment, in line with the HSE and Wirral Council's Health and Safety Management Arrangements for Managing Stress.

In seeking to ensure the effectiveness of this policy, the School will:-

- Ensure that legal requirements are complied with as far as is reasonably practicable.
- promote best practice, and improve knowledge and skills in stress management
- identify, as far as is reasonably practicable, all workplace stressors, and conduct risk assessments to eliminate or reduce stress, or control the risks from stress. Risk assessments will be regularly reviewed
- consult with staff representatives on the implementation of all proposed school wide action relating to the prevention of workplace stress
- provide adequate resourcing to ensure the implementation of this policy
- maintain a robust risk management process to ensure that principal risks are reported to the Governing Body

Action to take if you think someone maybe suffering with stress

The following steps **must be taken** by the Line Manager if a member of staff expresses that they may be suffering from stress or you consider they are showing symptoms of stress or if stress has been diagnosed by their GP.

- Sit down and talk in private with the person concerned.

- Establish whether the problem (or perceived problem) is a work related issue or not;
- Find out whether expert help is required;
- Establish if changes within the work environment could help the problem.
- With the person concerned complete a risk assessment form, this should help clarify what the issues are and what action is required.
- Identify issues causing concern (work related, personal, physical etc);
- Establish what effect these issues are having on the persons' well-being;
- Identify what measures are in place already to control the risk of stress;
- Identify what further action can be taken to further reduce the risk.
- Arrange for expert help if required by referral to Occupational Health or Employee Assistance Programme for confidential advice and support.
- Where it is identified that the stressors are of a personal nature, direct the individual to Employee Assistance Programme or other external expert agency. **Do not give personal advice.**
- Obtain additional information/guidance/videos/leaflets from Jeanne Fairbrother Associates
- If additional action is identified then a review date should be set, with regular non-formal checks made on an ad-hoc basis.
- Ensure that any agreed actions to be taken are acted upon as soon as possible, make sure that the person concerned knows of any possible time constraints.
- Ensure that the risk assessment and any other notes made are recorded, kept safe and agreed with the person concerned.

Rehabilitation

- Ensure there are arrangements for staff to have an early Return to Work interview focusing on the person rather than any work problems there may be;
- Make sure that people who have been off sick with a stress-related illness feel that they are welcomed back;
- Make sure that the person is not placed in a situation which contains the same factors that led to their illness;
- If you discover that work caused, or was part of the cause, of ill health leading to absence, you should address the problems and make alterations;
- Staff are likely to feel uncomfortable if they think they are getting special treatment.
- Make sure the person undertakes the range of duties that would normally be expected of the job.
- Reasonable adjustments such as reduced responsibilities, part-time working or phased return to work could be considered for a limited period of time. Please refer to Local Authority's Guidance Reasonable Adjustments

Stress Management Policy details support systems and how staff can access them.

See CYPD website for Local Authority Health and Safety Stress Management Arrangements available on **CYPD Wescom Website “Health & Safety”**

3.24 Training

Training is one of the most important tools in achieving competence and when this is coupled with experience, a person's competency is increased.

Correctly identified training which is regularly updated and assessed for its relevance will ensure that safe practices are maintained and that legal obligations are met by the employer.

It is important that:

- New employees are made aware of basic health and safety information relevant to the organisation and given an appreciation of the safety culture which exists. Particular attention should be given to younger employees where it is likely to be their first job.
- Training the experienced workers is also very important as systems of work will vary within the organisation and even between departments. An assessment of training needs will be required for the school to ensure that all employees are competent, even though the employee may have evidence of formal training.
- In order to secure the health and safety of all employees, the school will provide a range of health and safety training to all new employees with regular refresher training; where on the job training is not sufficient.
- Induction training should commence on the first day of employment so that employees become familiar with basic procedures as soon as they are at their place of work. The person responsible for this induction is the line manager.

See Health and Safety Training for New Employees available on Jeanne Fairbrother Associates website

3.25 Violence

The definition of work-related “violence & aggression” in the context of these arrangements means;

“Any incident where staff are abused, threatened or physically assaulted in circumstances related to their work involving an explicit or implicit challenge to their safety, well-being or health”.

Greasby Infant School is committed to providing a safe and secure work environment for all its employees, pupils and visitors. It recognises that both physical injuries and

physiological distress can result from acts of violence and aggression and incidents involving verbal abuse, intimidation, threats and physical assault arising in the course of work or as a result of work they undertake.

The Council supports the prosecution and/or taking of legal action against any perpetrators of violence and aggression against a Council employee or an employee of a contractor discharging any Local Authority statutory undertaking whenever that may occur. These arrangements outline the measures and action to be taken to prevent and manage violence towards staff in connection with work; this includes staff on staff incidents. The Council will also provide support to those employees who are affected by an act of abuse or violence in connection with work.

Where it has been identified, staff will be provided with appropriate information, instruction and training for dealing with difficult situations

3.26 Vehicles

Vehicular access to the school is restricted to school staff and visitors only and not for general use by parents / guardians when bringing children to school or collecting them.

School gates are kept shut between 9.15am and 2.45pm

The children's and parents' access shall be kept clear of vehicles.
The access from the road shall be kept clear for emergency vehicles.

The vehicle access gate must not normally be used for children's pedestrian access. If an event is being held outside of normal school activities for which this is the sole access, then all due care must be taken to ensure the safety of those passing through this entrance.

3.27 Work at Height

Work at height activities from where a person could fall a distance liable to cause personal injury present a significant risk, all such activities should be avoided where it is reasonably practicable to do so.

Where this is not possible a risk assessment must be conducted and the risk reduced as far as is reasonably practicable. A copy of this assessment will be provided to employees authorised to work at height.

The establishments nominated person responsible for work at height is Mr P. Davies.

The nominated persons shall ensure:

Suitable and sufficient risk assessments must be completed for all working at height activities e.g. putting up displays, changing light fittings, retrieving objects from roofs, clearing of gutters, painting, etc. The risk assessment must consider the following:

Individual

- Are they up to the job
- Medical/physical needs
- Medication
- Suitable clothing including footwear
- Attended suitable training and refresher courses
- Completed Ladder Safety training

Equipment

- Appropriate for the job
- Correct height
- In good state of repair
- Regularly inspected
- Easily accessible
- Conforms to BSEN 131

Location

- Weather
- Lighting
- Uneven/unstable/slippy surfaces
- Contamination – mud, water, oil, etc
- Vehicular and pedestrian access
- Overhead services
- Access – opening doors/windows
- Secured ladder
- Distractions e.g. sudden noise, pedestrians, electric shock
- Height at which works is to be completed

Activity

- Avoid it
- Plan the work
- Minimise the risk of fall or reduce distance of fall
- Duration – up to 30 minutes
- Frequency – daily, weekly, etc.
- Lone worker – can the individual summon help if required.
- Physical effort required
- Manual handling of equipment
- Falling objects

Please see Jeanne Fairbrother Associates website for Management of Work at Height

3.28 Work Equipment

All staff are required to report to P. Davies any problems found with plant/equipment, damaged electrical apparatus or wiring - including portable equipment and permanent wiring.

Defective equipment will be clearly marked and taken out of service by storing in a secure location pending repair / disposal.

3.28.1 External play equipment

The external play equipment will only be used when supervised. Such equipment should be checked daily by P. Davies and any member of staff supervising outdoor activities, for any apparent defects, and particularly for contamination by animals in areas covered by bark chippings or soft sand. An annual inspection will be carried out by a suitably competent contractor (Play Inspection Company). Records of all inspections to be kept on site for a minimum of five years.

3.28.2 Curriculum

Class teachers are responsible for ensuring maintenance requirements for equipment in their areas are identified and implemented.

Mrs H Burgess will identify all work equipment in an equipment register and ensure that risk assessments are carried out, identifying any relevant servicing / routine maintenance / inspection regimes, training or instruction needs, personal protective equipment requirements and authorised users.

The following equipment has been identified as likely to involve a specific health and safety risk and details are given below on inspection, use and repair.

EQUIPMENT	RESPONSIBLE PERSON (WHO CAN ASSESS RISK)	AUTHORISED USERS OF THE EQUIPMENT	AUTHORISED PERSON FOR INSPECTION AND REPAIR	INSPECTION PERIOD (E.G. TERMLY, ANNUALLY)
Access equipment e.g. ladders, tower scaffold	Teachers, TAs, caretaker	Teachers, TAs, caretaker	Teachers, TAs, caretaker	Ladders Visual inspection each time used. Formal checklist to be completed at least once per term. Tower scaffold on erection. Avoid leaving in situ when not in use.
Caretaking/cleaning equipment including hand tools	Cleaners, caretaker	Cleaners, caretaker	Cleaners, caretaker	Visual inspection each time used.
Grounds maintenance equipment	Caretaker Grounds maintenance staff	Caretaker Grounds maintenance staff	Caretaker Grounds maintenance staff	Visual inspection each time used.
Gas appliances (includes school catering equipment, boilers, food tech etc.)	Kitchen staff	Kitchen staff	Corgi registered contractor	Daily visual Annually
PE and play equipment	Teacher, TAs, caretaker	Teachers, TAs, caretaker	Play Inspection Company	Daily visual before use. Annually
Portable electrical equipment	Teachers, TAs, caretaker	Teachers, TAs, caretaker	PAT 247 Ltd	Daily visual before use.

3.29 **General Statement of Intent**

Wirral Council accepts its responsibilities under the Health and Safety at Work etc Act 1974 and all subsequent regulations.

The Council will ensure, so far as is reasonably practicable, the health, safety and welfare of employees, visitors, contractors and any other persons affected by its undertaking.

It is the responsibility of the Chief Executive, to ensure that Departments comply with this commitment through the implementation of a robust management system that seeks continual improvement in the health and safety performance of the Council.

The Council's objectives, so far as health and safety is concerned, are to provide and maintain, so far as is reasonably practicable:-

- plant, equipment and systems of work that are safe.
- safe arrangements for the use, handling, storage and transport of articles and substances.
- sufficient information, instruction and supervision to enable all employees to avoid hazards and contribute positively to their own health and safety at work.
- a safe place of work with safe access to and egress from it.
- a healthy working environment and adequate welfare facilities.

All staff should be aware of their responsibilities contained within this health and safety policy and report any unsafe acts or situations to an appropriate Officer.

"There is nothing so urgent or important that we cannot take time to do it safely"

3.29.1 **Organisation and Responsibilities**

Chief Executive

The Chief Executive is ultimately responsible and accountable for health and safety in the Council.

To achieve the objectives stated in the health and safety statement the Chief Executive will ensure a management system that:

- Makes all Chief Officers fully aware of their responsibilities for health and safety. Ensuring that they develop safety management plans applicable to the work of their department.
- Informs all employees, contractors, service users, visitors and others about this policy and their health and safety responsibilities.
- Sets performance targets and shares them with stakeholders, encouraging everyone to take part in maximising achievement.
- Reviews this policy and the arrangements for its implementation, after consultation with stakeholders, to maintain its effectiveness in changing conditions and circumstances.
- Consults effectively with employees about health and safety matters.
- Requires that Chief Officers bring to the notice of the appropriate committees of the Council matters concerning the adequacy of the resources needed to implement this policy.
- Monitors each departments' compliance with health and safety legislation and Council procedures to achieve continual improvements in health and safety performance.
- Brings any health and safety matters which cannot be resolved or which are causing special concern to the attention of the appropriate Committees of the Council.
- Requires that everyone in the Council demonstrate by example his or her personal commitment to the highest standards of health and safety.

Deputy Chief Executive/Director of Corporate Services

When the Chief Executive is absent the Deputy Chief Executive/Director of Corporate Services will deputise in all health and safety matters. This duty is additional to their safety responsibilities as a Chief Officer.

Director of Technical Services

In addition to any safety responsibilities as Chief Officer the Director of Technical Services will:

- Establish a corporate safety management system to develop, co-ordinate and monitor compliance with policies and procedures to implement the Councils health and safety duties in law.
- Enquire about the level of achievement of the objectives of this policy, acting where necessary to improve performance.
- Revise this policy to maintain its effectiveness in changing conditions and circumstances.
- Inform the Chief Executive about any health and safety matters which cannot be resolved, are giving cause for special concern or which are of significance to all departments.
- Report to the appropriate committees of the Council matters concerning the adequacy of the resources needed to implement this policy.
- Issue managers in the Council with adequate guidance to make them fully aware of their responsibilities under this policy.

Chief Officers

Each Chief Officer is ultimately responsible and accountable to the Council for health and safety within their Department. They will:

- Develop a detailed and effective safety management plan to implement Council policy.
- Include in the plan their departmental safety objectives, organisational requirements and arrangements for undertaking risk assessments.
- Monitor the level of achievement of the departmental objectives, taking action where necessary to improve performance.
- Revise or amend the plan to maintain its effectiveness in changing conditions and circumstances.
- Report matters concerning the adequacy of the resources needed to implement the plan to the appropriate committees of the Council.

- Make Service Managers and Supervisors fully aware of their responsibilities under this policy, issuing adequate guidance on responsibilities, rules, procedures and instructions applicable to the work of their section.
- Arrange to be properly represented at meetings of safety committees and that consultation with employees through these committees is effective.

The Departmental Safety Management Plan must refer to the general policy of the Council and identify the specific roles of all managers and staff.

The Health, Safety and Resilience Operations Manager

The Health, Safety and Resilience Operations Manager is responsible to the Director of Technical Services for the provision of competent advice about health, safety and welfare policy, procedures and training. Additionally he will provide operational support in health, safety and welfare matters to Chief Officers, Service Managers and Supervisors within the Council. With the assistance of the Health, Safety and Resilience Team, he will:

- Co-ordinate the Council's Health and Safety Officers to develop and review the Council's safety, health and welfare policies and practices.
- Advise on potential health and safety problems.
- Monitor departmental procedures for compliance with the standards of safety, health and welfare laid down in the Council's safety policies.
- Assist in the development of safety policies and procedures through the operation of departmental safety committees.
- Ensure that the administrative procedures in relation to the reporting and investigation of accidents and other administrative functions relating to safety and welfare comply with the Council's policy and any statutory obligations.
- Provide advice on the establishment, development and implementation of departmental safety, health and welfare provisions to meet the requirements of the Health and Safety at Work Act.
- Provide advice and arrange, where necessary, relevant health and safety training required to address any risks presented by authorised work activities.
- Assist in carrying out risk assessments and monitoring the implementation of any control measures identified.

- Provide advice on safe working practices in consultation with Chief Officers, determining levels of responsibility and preparing notes for guidance for all levels of employees.
- In consultation with the Director of Technical Services monitor accident reports, continuously reviewing accident trends to advise on future action to comply with statutory requirements and Council policy.
- Promote an awareness of safety and health practices within the Council providing satisfactory publicity and guidance notes at all levels and locations.
- In co-operation with Chief Officers continuously review methods of working to ensure safe working practices.

All employees with supervisory responsibilities

Supervisors and managers will implement the Council's Health and Safety Policy within their own section. They will:

- Assess all work activities under their control and where risks are identified develop action plans to reduce those risks so far as is reasonably practicable.
- Report the findings of any risk assessment to line management where the authority to act lies outside their power.
- Ensure that all employees receive sufficient training, instructions and information to carry out their work safely.
- Provide employees with the correct plant, equipment, personnel protective clothing, furniture etc.
- Monitor that all employees within their area of responsibility carry out their tasks safely.
- Be familiar with Council Health and Safety Policy and departmental health and safety management system.

All other employees

All employees are expected to participate in the implementation of the Council's Health and Safety Policy. They will:

- Act in the course of their employment with due care for their own safety and that of others who may be affected by their acts or omissions at work.

- Co-operate, so far as is necessary, to enable the Council to perform any duty or to comply with any requirements of health and safety legislation currently in force.
- Use correctly all work items, guards, protective equipment etc, provided by the Council, in accordance with the training, instructions or information that they have received.
- Report all accidents and incidents (whether people are injured or not) appropriately.
- Report promptly to line management any defective equipment, plant, premises, hazards or damage.

The various policies, arrangements and guidance that this Council has developed to ensure the health and safety of its employees and anyone else affected by its work are published on the Human Resources Handbook on the Council's Intranet. These policies and arrangements will be implemented within departments within their own health and safety plans.
